Muntinlupa City, Philippines · 25 years old

SUMMARY

An eager learner with 4 years in web development, passionate about building efficient applications and exploring new technologies. Driven by a dream to transition into cybersecurity, I strive to grow my skills while delivering reliable solutions.

TECHNOLOGY PROFICIENCIES

Full Stack Development	Microservices	Network Administration
Mobile Development	Ruby on Rails	Cloud Security
Data Analytics	Outsystems	Python

PROFESSIONAL EXPERIENCE

Paramount Life and General Insurance Inc.

July 2023 - Present

Full Stack Developer

As a full-stack developer, I have successfully managed diverse projects, from building functional websites from the ground up to implementing mobile applications, designing secure and efficient database structures, overseeing network and cloud infrastructure, and ensuring the protection of critical data.

ASTI Business Services Inc.

Dec 2022 - Jun 2023

Junior Data Engineer

As a junior data engineer, I'm passionate about building and maintaining data systems that support data-driven decisions. Skilled in SQL and Python, I focus on cleaning, structuring, and optimizing data to ensure accessibility and integrity. Always eager to learn and contribute to team projects.

Achieve Without Borders Inc.

April 2021 - Jun 2021

Internship - Software Developer Intern

As a software engineer intern, I'm excited to apply my programming skills and learn from real-world projects. Passionate about coding and problem-solving, I'm eager to contribute to teams and help build innovative solutions.
